Email: jvpurushotham31@gmail.com
Mobile: +91 7330721330

SKILLS

- **Languages:** Python, C, C++, Java, JavaScript, SQL
- **Frameworks:** Django, Flask, FastAPI, Tailwind CSS
- **Databases:** MySQL, SQLite, PostgreSQL, MongoDB
- **ML/AI:** Machine Learning, Deep Learning, NLP, Computer Vision
- **Tools:** Git, Docker, Linux, PowerBI, Tableau, Excel
- **Concepts:** Data Structures, Algorithms, OS, DBMS, OOP, DevOps
- **Soft Skills:** Problem-Solving, Storytelling, Adaptability, Curiosity

PROJECTS

QuickCart – Blinkit-Style Instant Grocery Delivery Platform | [GitHub](#) Jan' 2026 – Feb' 2026

- Engineered and deployed a scalable full-stack grocery delivery platform using Django supporting dynamic product catalog, category hierarchy, cart persistence, wish-list management, and secure checkout workflows.
- Designed role-based authentication system with admin dashboard enabling inventory control, order lifecycle tracking, and product management through optimized relational database queries.
- Implemented AJAX-driven asynchronous UI updates improving responsiveness reducing page reload latency on major workflows.
- Structured modular Django application architecture improving maintainability, scalability, and API extensibility for future microservice integration.

Tech Used: Django, Python, SQLite/MySQL, HTML5, CSS3, JavaScript, Django ORM, Authentication, Admin Panel, Git/GitHub.

InsureSense – Customer Behavior Prediction using ML Pipeline | [GitHub](#) Sep' 2025 – Nov' 2025

- Performed exploratory data analysis on structured insurance datasets using **10+** demographic and policy-related features improving dataset quality through missing-value handling, encoding, and feature scaling.
- Evaluated **5+** classification algorithms using GridSearchCV hyperparameter optimization and k-fold cross-validation achieving **~90%** prediction accuracy.
- Built modular machine learning pipeline integrating preprocessing, feature engineering, model training, and evaluation enabling automated insurance risk prediction workflows.
- Improved prediction stability by applying feature selection and correlation-based dimensionality reduction techniques.

Tech Used: Python, Jupyter Notebook, GridSearchCV, scikit-learn, PyCharm, Git/GitHub.

ChessGame – Chess Platform using Flask and Stockfish Engine | [GitHub](#) Jun' 2025 – Aug' 2025

- Developed an interactive web-based chess platform supporting two kinds of gameplay modes using Flask backend architecture.
- Integrated Stockfish chess engine for intelligent move evaluation **1000+** board positions per turn with configurable difficulty levels.
- Implemented drag-and-drop UI with real-time move validation, game-state tracking improving gameplay on various devices.
- Deployed application on Render enabling public access, real-time gameplay interaction through scalable hosting infrastructure.

Tech Used: Python, Flask, HTML5, CSS3, JavaScript, PyCharm, Stockfish chess engine, Render, Web Development, Git/GitHub.

TRAINING

Advanced Python for ML and AI | CSE Pathshala | [Certificate](#) Jul' 2025

- Gained Practical experience on Python for Machine Learning & AI training by implementing real-world ML workflows.
- Built and evaluated models using scikit-learn, TensorFlow, with data preprocessing, feature engineering, hyperparameter tuning.

CERTIFICATES / CERTIFICATION

- Introduction to Cloud Computing (IBM) | Coursera | [Certificate](#) Sep' 2025
- NPTEL – Introduction to Machine Learning (IIT-Madras) | Swayam-Nptel | [Certificate](#) Apr' 2025
- Software Development Processes and Methodologies (University of Minnesota) | Coursera | [Certificate](#) May' 2024
- The Bits and Bytes of Computer Networking (Google) | Coursera | [Certificate](#) Jan' 2024

ACHIEVEMENTS

Data Structures & Algorithms Excellence Mar' 2026

- Solved 500+ problems across LeetCode, GFG.

Competitive Programming Feb' 2026

- Achieved 1300+ rating on CodeChef and 1600+ rating on leetcode, through consistent contest participation.

Merit Scholarship Feb' 2026

- Honored with SBI Asha, HDFC merit-based scholarships.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology in Computer Science and Engineering (Hons) - CGPA: 8.83 Since Aug' 2023

Narayana Junior College Nandyal, Andhra Pradesh
Intermediate – Percentage: 97.4 Jun' 2021 – Apr' 2023

Sarvagna EM High School Nandyal, Andhra Pradesh
Matriculation – Percentage: 98.3 Jun' 2020 – May' 2021
