SKILLS

- **Languages:** C, C++, Java, JavaScript, Python, SQL
- **Frameworks:** HTML, CSS, Flask, Fast API, Scikit-Learn, TensorFlow, Keras, OpenCV, PySpark, Stream lit
- **Tools/Platforms:** MySQL, PostgreSQL, Big Query, MongoDB, Excel, Power BI, Tableau, PyCharm, VS Code
- **Topics:** Machine Learning, Deep Learning, SDLC, NLP, Data Structures, OOPS, DevOps, MLops
- **Soft Skills:** Problem-Solving, Storytelling, Collaboration, Teamwork

PROJECTS

Netflix-Customer-Churn-Prediction | Python, Jupiter NB, Docker, VS Code | Github Aug 2025 - Oct 2025

- Developed a **production-ready end-to-end machine learning pipeline** covering data acquisition, preprocessing, feature engineering, model training, and deployment.
- Implemented an **LGBM Classifier** and **achieved 95% accuracy**, with detailed evaluation metrics, feature interpretation, and model optimization.
- Containerized and deployed the prediction service using **Docker** and **ngrok**, with a responsive **HTML/CSS/JavaScript + Flask** frontend for real-time churn prediction.

Web Based Chess Game | HTML, CSS, JavaScript, Python, Flask, PyCharm | Github Jun 2025 - Aug 2025

- Built a complete **browser-based chess** application to support multiplayer gameplay and AI-driven modes.
- Integrated **Stockfish chess engine** to enable intelligent move, real-time analysis and AI decision-making.
- Designed a **fully interactive UI using** HTML, CSS, and JavaScript, ensuring smooth animations, game state updates, and an engaging user experience.

Electronics Review Analysis | Python, Stream lit, Jupiter NB, PyCharm | Github Feb 2025 - Apr 2025

- Performed **large-scale data scraping** from Flipkart using Python and BeautifulSoup, collecting thousands of electronic product reviews.
- Conducted **NLP-based sentiment analysis** using tokenization, vectorization, and polarity scoring to extract customer insights and trend patterns.
- Created **interactive dashboards** using Stream lit, improving product research, tool selection efficiency by **40%**.

TRAINING

Trainee (Python for ML & AI) Jun 2025 – Aug 2025

- Completed a 2-month remote training program focused on Python, ML and AI.
- Gained hands-on experience with sk-learn, TF for model development, training and evaluation.
- Handled complete ML pipelines, covering data preprocessing, model tuning, and deployment stages.

CERTIFICATES

- | | |
|---|----------|
| • Introduction to Machine Learning – NPTEL Link | Apr 2025 |
| • Introduction to Cloud Computing (IBM) – Coursera Link | Sep 2024 |
| • Google AI Essentials – Coursera Link | Aug 2024 |
| • Computer Networking (Google) – Coursera Link | Jan 2024 |

ACHIEVEMENTS

- **SBI Asha Scholarship (2025)**
Honored with SBI Asha Scholarship
- **Naukri Campus Young Turks**
Scored 95.14 percentile Young Turks (Top 1%)
- **350+ problems solved on DSA - Leet code, GFG**
Acquired DSA proficiency with 350+ problems
- **Educator (English, Math, Science)**
Educated Students from grade 5-10 for two months
- **HDFC Badthe Kadam Scholarship (2023, 2024)**
Achieved merit-based HDFC Scholarship

EDUCATION

- | | |
|--|--|
| • Lovely Professional University
Bachelor of Technology (Hons.) - Computer Science and Engineering- CGPA: 8.9 | Phagwara, Punjab
August 2023 - Present |
| • Narayana Junior College
Intermediate- Percentage: 97.4. | Nandyala, Andhra Pradesh
June 2021 - March 2023 |
| • Sarvagna EM High School
Matriculation- Percentage: 98.3 | Nandyala, Andhra Pradesh
Jun 2020 - March 2021 |
